

Charter School for Applied Technologies

ATTENTION: Families of Students in Kindergarten and First Grade

August 18, 2020

Dear Parents/Guardians:

Thank you for taking the time to complete the survey on our website that indicates the need for a computer. We understand and recognize that this is an essential piece to the learning of our students during remote schooling. As we work through a computer rollout, I wanted to inform our families that students in Kindergarten and First grade that requested a computer will be delayed.

In an effort to support learning, instructional packets will be made for the beginning of school. Additionally, teachers will provide a suggested schedule for you to follow to organize when and how many assignments should be completed each day. Please keep an eye on our website for dates and times in which the materials will be available for pick-up.

While we wait for the additional computers to arrive and get them set up for your child(ren), if you have a device at home, it is strongly encouraged to access the online sessions to get to know the teacher, their classmates, and academic support. In the event that you are unable to access the material virtually, teachers will be available via email and text.

If you have not completed the device request form please visit our website at csat-k12.org. In the event that you do not have access to a computer and need to request a device please contact Stacey Keller at our Family Support Center. She can be reached at 876-7505, ext. 5105.

Thank you for your continued support as we navigate through this challenging time together.

Sincerely,

Sue Jurewicz
Principal, K-5

The Charter School for Applied Technologies prepares students to attain family-sustaining careers by integrating career exploration and a lifelong learning culture.
