INTRODUCTION

This plan was adopted by the Charter School for Applied Technologies to meet the expectations of Safe Schools Against Violence in Education Act (SAVE). SAVE was passed by the New York State Legislature and signed into law by Governor Pataki on July 24, 2000. Project SAVE culminates the work of the Task Force on School Violence chaired by Lieutenant Governor Donohue. The Task Force consisted of a broad range of qualified people from all parts of the state including students, parents, teachers, school administrators, law enforcement experts, business leaders, mental health professionals and local elected officials. From its inception in January 1999, the Task Force sought information concerning the best school violence prevention and intervention practices in the state and the nation. Ten public hearings were held throughout the state, providing a rich array of recommendations from local communities about ways to ensure the safety of New York's students. The Task Force's final report, *Safer Schools for the 21st Century*, contained a series of recommendations intended to reduce incidents of violence in schools and strengthen schools' capacities for responding to emergencies that could affect the health and safety of children.

The New York State Board of Regents approved amendments to the Regulations of the Commissioner of Education as emergency measures in November 2000 to ensure compliance with the new legislation. The revised regulations in Section 155.17 of the Commissioner's Regulations contain the requirements for schools concerning school safety plans. A major component of SAVE is the development of school safety plans at the district and at the school levels. At the district level, the *District-Wide School Safety Plan* is the school emergency management plan that is required for all districts. At the school building level, a *School Building Emergency Response Plan* must be prepared for each school building in the state. Together, these plans are intended to provide the means for each school district and all the buildings in the district to respond to acts of violence and other disasters through prevention, intervention, emergency response, and management.

SECTION 1

GENERAL CONSIDERATIONS and PLANNING GUIDELINES

A. PURPOSE

The District-Wide School Safety Plan was developed pursuant to Commissioner's Regulation 155.17. At the direction of the Charter School for Applied Technologies Board of Trustees, the Superintendent of Charter School for Applied Technologies appointed a District-Wide School Safety Team and charged it with the development and maintenance of the District-Wide School Safety Plan.

SECTION 1

GENERAL CONSIDERATIONS and PLANNING GUIDELINES

B

B. DISTRICT-WIDE SAFETY TEAM MEMBERS

The Charter School for Applied Technologies has created a District-Wide School Safety Team consisting of, but not limited to, representatives of the Board of Trustees, students, teachers, administrators, parent organizations, school safety personnel and other school personnel.

Andrew Lyle, Superintendent
Garrick Loveria, Deputy Superintendent
Robert Shannon, Chief Technology Officer
Tanya Moore, Chief Financial Officer
Kara Oliver-Perez, Director of Communications
Christopher Bigouette, High School Teacher
Elaine Reynolds, Middle School Teacher
John Bresnock, Elementary School Counselor
Kevin Stoll, Technology Team Lead
Joel Mena, K-12 Support Operations Program Manager
Leona Rangel, Compliance Coordinator

SECTION 1

GENERAL CONSIDERATIONS and PLANNING GUIDELINES

C. CONCEPT OF OPERATIONS

- The District-Wide School Safety Plan shall be directly linked to the individual Building-Level Emergency Response Plans for each school building. Protocols reflected in the District-Wide School Safety Plan will guide the development and implementation of individual Building-Level Emergency Response Plans.
- In the event of an emergency or violent incident, the initial response to all emergencies at an individual school will be by the School Emergency Response Team.
- Upon the activation of the School Emergency Response Team, the Superintendent of Schools or his/her designee will be notified and, where appropriate, local emergency officials will also be notified.
- This plan has taken into consideration the U.S. Department of Agriculture, Food and Nutrition Service (FNS), Biosecurity Checklist for School Foodservice Programs. The District Safety Committee will consider annually Food Security Guidelines to ensure the safety of Students and Staff. This Emergency Plan is designed to respond to a scenario where Food Safety or Security puts Students or Staff at risk.
- Local emergency officials play an important role in managing response actions in emergency situations. Assistance from these officials is obtained by:
 - 1) Asking for their input in the planning process. If possible, include them as a member of the district-wide and building teams.
 - 2) Include them in the training of staff and students.
 - 3) Use their expertise and experience in the conduct of all drills, including tabletop exercises.
 - 4) Discussing all resources available if Article 2-B is invoked.
- This plan has taken into consideration the District HACCP Plan. The District Safety Committee will consider as needed a review of the Food Security Guidelines to ensure the safety of Students and Staff. This Emergency Plan is designed to respond to a scenario where Students or Staff are at risk due to Food Safety or Security

SECTION 1

GENERAL CONSIDERATIONS and PLANNING GUIDELINES

D

D. PLAN REVIEW AND PUBLIC COMMENT

- This plan shall be reviewed and maintained by the District-Wide School Safety Team and reviewed on an annual basis on or before October 1 of each year or when changes are necessary.
- The district-wide and building-level plans may be adopted by the Board of Trustees only after at least one public hearing that provides for the participation of school personnel, parents, students and any other interested parties. The plan must be formally adopted by the Board of Trustees.
- While linked to the District-Wide School Safety Plan, Building-Level Specific Emergency Response procedures shall be confidential and shall not be subject to disclosure under Article 6 of the Public Officers Law or any other provision of law, in accordance with Education Law Section 2801-a.
- Full copies of the District-Wide School Safety Plan and any amendments to Building-Level Emergency Response Procedures will be supplied to both local police and fire.

Law enforcement personnel provide a visible presence on campus during school hours and at school-related events.			
Local law enforcement provides after-hours patrols of the school site.			

A. IDENTIFICATION OF SITES OF POTENTIAL EMERGENCIES

GUIDELINES

When developing a specific list of potential sites for emergencies, *at the building level*, there are many variables that could serve as a catalyst or provide the environment for an emergency to take place at that site. Concerns such as these have been considered when writing this plan and may be internal or external such as:

- Areas of Student Congregation
- Athletic Events
- Bomb Threat
- Chemical Spill / Release
- Community Health
- Fire / Explosion
- Food Security and Safety (Cafeterias)
- Injury / Illness
- Local road & waterways
- Playground areas
- Proximity to major highways (chemical transport)
- Proximity to multiple industrial chemical sites
- Railroad
- Terrorism
- Utility Outage (Power, Communication, HVAC, etc.)
- Violence / Civil Unrest
- Weather / Natural event

This list has been used as a guideline to assist in the development of building level plans and will be reviewed annually and updated as relevant.

***SECTION 2:* GENERAL EMERGENCY RESPONSE
PLANNING**

B

B. PLANS OF ACTION IN RESPONSE TO SOME EXPECTED EMERGENCIES

EMERGENCY CLOSINGS

In the event it is necessary to close school for the day due to inclement weather or other emergency reasons, announcement thereof shall be made over local television, radio and social media platforms designated by the district administration.

When school is closed, all related activities, including athletic events and student activities, will ordinarily be suspended for that day and evening.

The attendance of personnel shall be governed by their respective contracts.

EARLY DISMISSAL RECOMMENDATIONS

In the event of an imminent emergency that requires specific **EARLY DISMISSAL** procedures, they are as follows:

The EARLY DISMISSAL procedure will be implemented when a situation such as heavy snow warning, etc. is imminent. This would occur at any time of the day after the children are on their way to school, or while school is in session. The district order would be given by the Superintendent of the school district.

1. Contact each resource for transportation to provide for go home procedure.
 - a. Teachers and students return to homeroom.
 - b. Attendance of all students should be taken by teachers.
 - c. Names of students not accounted for should be referred to office.
 - d. Teachers and students should remain in place until directions for dismissal are given.
 - e. Good conduct and discipline standards are to be enforced.
 - f. Special considerations should be given to:
 1. Handicapped persons – contact transporting agency
 2. Student drivers dismissed to go home if situation permits
 3. Day care children – notify parents to pick up children
2. Information for reason of early dismissal may be shared with teachers and students as deemed necessary.
3. Information:
 - a. Explanation of situation
 - b. What is being done
 - c. Anticipation of length of time
4. Communication with parents or media as necessary.

EVACUATION RECOMMENDATIONS

In the event of an imminent emergency that requires specific **EVACUATION** procedures, they are as follows:

1. The central office, emergency coordinator or building administrator, upon realization or notification from a public official (fire chief, police officer, local or county disaster official), of a natural or man-made disaster will notify one another of the impending emergency and inform each other of the current situation.
2. Contact with local fire or police will be made by the building administrator.
3. The building administrator will inform his/her staff of the decision to evacuate and where the building population will be evacuated to.

Items to consider for evacuation:

- a. Total accountability of students and staff
- b. Handicapped individuals
- c. Transportation – District
- d. Time of travel and length of stay – temporary
- e. Notification of parents/guardians
- f. If short term sheltering is necessary, notify the site(s) the occupants will be taken to.

NOTE: Standard fire evacuation procedures should be used.

4. Building office staff should secure pertinent resource information such as emergency cards, computer data disks with student information, etc. Teachers should carry plan book or class registers.
5. Transportation needs.
6. Students should prepare for evacuation **AS TIME PERMITS**
 - a. Coats, lunches, books
 - b. Consideration to walkers and students with cars

NOTE: Each building has specific sites of protocol for evacuation.

SHELTER IN PLACE / LOCATIONS

There are times when it is necessary to remain in place or move the school population to a single or multiple location(s) in the school building. This is called a “Shelter in Place”. In most cases, a shelter in place is done when there is a threat of or actual weather-related incident or a bomb threat.

Shelter in Place Objectives

- To minimize injury or death.
 - To locate and contain any device or weather damage.
 - To facilitate emergency responses.
 - To establish safe routes and designated areas.
1. The SHELTER procedure may be implemented in two ways:
 - a. SHELTER in place:
 - Teachers and students remain in assigned rooms.
 - All students should be accounted for by roll-call by teachers.
 - Names of students not accounted for should be referred to attendance officer.
 - Teachers and students should remain in place until either given further directions or released by building administrator.
 - Good conduct and discipline standards are to be enforced.
 - b. SHELTER in location(s):
 - Teachers and students will be given directions as to where to assemble.
 - Movement of students to locations should be done in a quiet, orderly fashion.
 - Students should be accounted for by roll-call by teachers.
 - Names of students not accounted for should be referred to attendance officer.

NOTE: Use central locations during non-weather emergencies or when occupants are not in danger of structural failure.
 2. Superintendent notification.
 3. Information about the situation should be shared with teachers and students as deemed fit. This should be done by best communication method.
 4. Information:
 - a. Spoken in a calm, controlled manner.
 - b. Explain the situation.
 - c. What is being done.
 - d. Anticipation of the length of time.
 5. Communications with parents or media may be necessary.
 6. Dismissal or evacuation procedures should be done in an orderly manner (if necessary).

NOTE: The district has a specific Shelter in Place Plan per building.

LOCKDOWN

In the event of an imminent emergency that requires specific **LOCKDOWN** procedures, they are as follows:

The lockdown procedures will be implemented when building staff have become aware of a situation in which students and staff should be kept in locked rooms within the school building. These procedures may be implemented as a result of an intruder in the building, hostage situation or a biological threat. Lockdown may be activated at any time of the day and will affect the entire building.

*Consider that communication may be under duress and cannot be trusted. Risk assessment must be made by the receiver.

Lockdown-Procedures:

- **Lockdown** will be announced by intercom, public address system, or otherwise. Do not use codes. **Call 911 and report your situation. Consider a Secure Lockout for adjacent school buildings as well.**
- **Immediately** gather students from hallways and areas near your room into your classroom or office. This includes common areas and restrooms immediately adjacent to your classroom.
- **Lock** Classroom door(s) and have students take a seated position on the floor next to the wall out of view from the door window. Stay out of sight.
- **Covering of door window is permissible and optional.** Covering must be removed at conclusion of event.
- **Leave** the window blinds and lights as they are.
- **Document and Attend** to any injuries as well as possible.
- **No One** should be allowed to enter or leave a classroom or office under any circumstances.
- **Do not answer or communicate through your locked door.**
- **Do not allow anyone into your ‘secured’ area.**
- **Do not answer classroom telephone.**
- **Do not respond to a Fire Alarm unless imminent signs of fire are observed. Doing so could compromise the safety of those already secured.**
- **Do Not** talk within your secured area, except only as absolutely necessary.
- **Do Not** respond to the intercom, public address system, or other announcements.
- **Take Attendance** – include additions. Missing students’ last known locations should be noted. Keep this record for when you are released from the lockdown.
- **Lockdown will end ONLY when you are physically released from your room by emergency responders or other authority.***

***Responding law enforcement should have master key to conduct the release. Do not rely on school personnel with keys to be available to assist in the release.**

NOTE: The district has a specific Lockdown Plan per building.

SECURE LOCKOUT

A “Secure Lockout” is the response to an actual or potential threat from outside the school building. An example of such a threat might be an escaped fugitive, custodial interference, or a disgruntled employee or spouse. Where the situation warrants, the school faculty, staff, and students are aware of – but not disrupted by such a response being activated. Consequently, the school day continues as normal except for the termination of all outside activities. In some cases, the details of a Secure Lockout do not need to be shared with the students to protect the identity of the individuals involved and minimize disruption to the school.

Secure Lockout Objectives

- To keep any threat of violence or dangerous incident out of the school building.
- To promote minimal disruption to the education process when there is a potential or actual incident outside the school building.

Secure Lockout Procedures:

- Secure Lockout will be announced by intercom, public address system, or otherwise. Use plain language to announce the Secure Lockout.
- If a school is in Secure Lockout because they were notified by police of a local situation, there is no need to call to advise police of the Secure Lockout. However, the school should keep the police advised of any change in status to your building.
- If the school is initiating the Secure Lockout due to a situation or potential incident discovered at the school, they should advise police of the Secure Lockout and what you may be anticipating.
- Lock all exterior doors and windows.
- All outside activities are terminated.
- Entry to the building is gained only on a one-on-one basis, and only through a locked and monitored door.
- Classes otherwise continue as normal.
- Secure Lockout is lifted when the external threat is resolved. Notification of such resolution may be through any means appropriate for the respective building.
- Upon resolution of an incident and termination of the Secure Lockout, contact police to advise them of such.

NOTE: The district has a specific Secure Lockout Plan per building.

In the event that sheltering on-campus is possible, sites have been identified to accommodate students.

COMMUNICATION RECOMMENDATIONS

Within Buildings

1. Use of the public address system by an administrator or his/her delegate to provide information and/or direction to staff and students.
2. If unable to use electricity or public address system failure:
 - a. If not constrained by time, an administrator or designee may walk through the building and inform faculty, staff and students of information and directions.
 - b. Use of a personnel delegate to communicate messages from chief administrator in charge to each floor and wing of the building. There should be as few persons as possible responsible to carry messages by word-of-mouth, as the more people used, the greater the chance of students and staff receiving misinformation.
 - c. The use of strategically located portable 2-way radios/cellular phones may be used throughout the building to help speed communications and relay information using fewer persons.
 - d. Communications may be made easier if students were collected in a centralized location (gymnasium, cafeteria, etc.) rather than individual classrooms.

NOTE: In case of electrical system failure, public telephones may still be operational.

Between Buildings

1. Public Telephone – use a designated extension or private line may be kept clear for emergency information between building administrators or their delegates.
2. Portable 2-way radios may be used for communication if buildings are within range of each other. Cellular phones are another option.
3. Better 2-way radio communication may be made via a bus or other school district vehicle operating on the same frequency.

RECOMMENDATIONS:

1. Each school should have at least two dependable portable radios/cellular phones which have a battery back-up system with extra batteries that may be used in an emergency.
2. Each school should have at least one dependable scanner or alternate device which can be programmed to emergency information frequencies (weather, police, fire). This scanner should have a battery back-up system with extra batteries.
3. Each school district should have access to a minimum of two (2) cellular phones.

PUPIL TRANSPORTATION - VEHICLES

Transportation Resources will be contacted as needed through outside transportation services. CSAT utilizes suburban district buses and contracts with Student Transportation of America, Inc. to transport students in grades K-8. Students in grades 9-12 utilize NFTA (Niagara Frontier Transportation Authority) Metro Bus transportation or suburban district buses.

- CSAT utilizes one school-owned multipurpose vehicle that seats no more than fourteen (14) students and one driver. The vehicle can only be utilized for no more than twenty-nine (29) extracurricular/athletic events involving students in a calendar year.

D

INCIDENT COMMAND SCHOOL ORGANIZATIONAL CHART

CSAT DISTRICT-WIDE

Command Post – Board Room at Family Support Center

VARIATIONS OF EMERGENCIES AND CHAIN OF COMMAND

There are three variations of emergencies which may present themselves to a school district:

1. Emergency situation within the school is managed by the Superintendent, unless authority is shifted to the District Emergency Coordinator.

In this situation, the Superintendent or School Incident Commander is in control, and makes their own decisions to remediate the situation.

2. Emergency incident within the school district which requires the assistance of an outside agency.

When the Fire Department is called by the school district, then the fire chief or ranking officer is in charge. The school district planning committee should then act as a resource and coordinating agency within the school district.

When a law enforcement agency is called by the school district the building administrator remains in charge. However, the law enforcement agency's recommendations should be fully complied with.

3. Emergency incident at local, county, state or national level where notification of the school district of the emergency is done from outside sources.

In the event of a large-scale emergency, the outside coordinating agency (most likely the county) will be in charge and again the school district emergency coordinator and planning committee will act as a resource and coordinating agency within the school district.

DUTIES OF DISTRICT-WIDE INCIDENT COMMAND AND OPERATIONS STAFF

Incident Commander (IC) <i>(Superintendent)</i>	Develop Incident Action Plan (IAP). Has overall responsibility at the incident or event. Sets objectives and priorities based on agency direction.
Deputy Incident Commander <i>(Superintendent Designee)</i>	Supports the Incident Commander in any capacity needed. For long term or large scale incidents, may act as Incident Commander during break periods/ rest periods.
Public Information Officer (PIO) <i>(Superintendent/Designee)</i>	Is the primary point of contact during an incident. Will work in conjunction with law enforcement and emergency services and public information officer at press briefings. <u>ALL</u> media contact will be through this individual.
Liaison Officer <i>(Supt. of Buildings & Grounds/ Director of Facilities, Building Principal)</i>	Will be the agency representative with outside agencies responding to the emergency event. Keeps Incident Commander informed of situation status.
Operations Officer <i>(Building Principal, Supt. of Buildings & Grounds/Director of Facilities)</i>	Develops tactical organization and directs all resources to carry out the Incident Action Plan (IAP).
Logistics Officer <i>(Supt. of Buildings & Grounds/ Director of Facilities, Building Principal)</i>	Provides resources and all other services needed to support the incident.
Planning Officer <i>(Finance purchasing rep)</i>	Develops the Incident Action Plan to accomplish the objectives. Collects and evaluates information, maintains status of assigned resources.
Finance/Administration <i>(Business Official)</i>	Monitors costs related to the incident/event. Provides accounting, procurement, time recording, cost analysis and overall fiscal guidance for the incident/event.

BUILDING LEVEL RESPONSE TEAM ROLES DEFINED

Primary Operations Administrator	Building Principal/Designee
Communications Liaison	Send and receive messages to and from outside personnel as needed by principal and other listed coordinators.
Emergency Services Liaison	Meet and coordinate first aid and other medical services.
Evacuation Site Coordinator	Sending site coordinator who will prepare to release the students to the new location and oversee the operations on this site until the main site is closed down and the Primary Operations Administrator arrives at the alternate site location.
Parent/Guardian Liaison	Handles all communications with parents and oversee the release of students after all attendance procedures are completed at the alternate site.
Site Management Attendance Coordinator	Assists in the attendance accounting for all students and adults at the alternate site before the release of any students. He/she will be assisted by the attendance personnel when they arrive from the primary site.
Transportation Coordinator(s)	Will receive and direct the buses when they enter the primary site to remove the students to the alternate site. The bus numbers and designations will be communicated to the primary site office or its alternate location for announcement to the teachers for dismissal and loading.
Mechanical Services Liaison	Assists the emergency services personnel locate key information and gain access to all parts of the primary site. He/she will secure the site after all intended personnel are relocated off the primary site.
Off-Site Emergency Coordinator(s)	Arrive at the alternate site before the arrival of the students and prepare the site for their arrival. Identify key areas which need to be opened and made ready. Make provisions for the other key personnel who will assist in the accounting and communication duties required to care for and later release the students to their parents. They will remain in charge of the alternate site until the arrival of the Primary Operations Administrator or the Evacuation Site Coordinator at which time they will support these personnel in their duties.
Other Personnel	Will assist in the accounting process and maintenance of order.

PUBLIC INFORMATION/ MEDIA NOTIFICATION PLAN

As media personnel arrive to cover a story, they should be directed to a media staging/reception area and should not be allowed to interview students without expressed permission.

Media Site Selection

Several factors should be considered when selecting a site to which the media can go and from which information will be dispensed:

Physical Space:	Select a room or area that will accommodate a media conference attended by several news agencies and school support staff.
Containment:	Ensure the site does not permit access by the media to the Command Post or student population.
Necessary Accommodations:	Choose a location that permits direct access to rest rooms and telephones and has sufficient electrical outlets and space for equipment.

Dissemination of Information

The Superintendent of Schools, or designee, will act as the Public Information Officer (P.I.O.) or Media Coordinator to work with the media during a crisis. The individual assigned this duty assumes responsibility for organizing the details.

During the crisis the Public Information Officer, P.I.O./Media Coordinator should greet reporters, direct them to the media staging area where they will be provided a news conference or press release.

Recommended Policy

The School District Superintendent will assign the P.I.O. or Media Coordinator for the district.

If there is a police or emergency service presence, release of information will be coordinated with the information officers from those agencies.

The P.I.O. for police, emergency services, and the school district will act as liaison to the media and coordinate press conferences and media deadlines.

Confidentiality and privacy issues regarding the identity of juveniles, staff members, and their involvement in a particular situation must be monitored very closely to prevent unauthorized disclosure of information.

The school district, police, and emergency services have an obligation to keep the media aware of significant developments as long as the investigation, actions, and/or locations are not compromised, or parents/spouses are not unnecessarily alarmed.

Announcing to the media that only one person will be releasing information usually will prevent attempts to obtain information by circumventing the authorized channels.

If an arrest results from the situation the police agency should coordinate this announcement through the school district spokesman and school superintendent so necessary steps can be taken by the school to prepare the faculty, students, and parents.

Tips for the P.I.O.

Ensure all media inquiries are routed to one person or office.

Prior to an event, prepare an official statement that can provide generic information about the crisis and action being taken. Include information to answer the basic who, what, when, where, why, and how questions.

Do not reveal names of students or employees involved in the incident, without prior approval from the responding police, emergency services, and the school's legal department.

When responding to the media, use the prepared official statement as your guide.

Distribute the prepared statements to teachers, staff, and students, and ensure that they are given accurate and consistent information.

P.I.O. Guidelines

Be brief.

Avoid providing superfluous information or using professional jargon.

Do not appear to be concerned mainly about the school's reputation.

Anticipate questions, especially on potentially controversial issues.

Keep calm. Show sensitivity to the seriousness of the matter, but do not overreact.

Answer one question at a time and answer only the question that is asked.

Do not treat anything as "off the record."

As official spokesperson, do not hesitate to say, "I don't know" or "I will have to get back to you."

Do not reply "no comment." This infers that information is being withheld.

Ignore abrasive comments made by reporters and maintain a professional attitude.

Provide updates to the media as events unfold, even after the initial crisis is handled.

Remember to follow up when information is available; bear in mind that the public has a right to know and understand what has happened.

**E. PROCEDURES FOR ANNUAL MULTI-HAZARD
SCHOOL TRAINING FOR STAFF AND STUDENTS**

The Charter School for Applied Technologies District will ensure that Multi-Hazard Training is made available to staff and students. The annual report of the school district's PDP (Professional Development Plan) will include allocated training blocks for anti-violence and multi-hazard training. Students and staff members will receive written information at the beginning of the regular school year summarizing the schools basic hazard plans and the availability of additional information and participation for those who desire. The Charter School for Applied Technologies District will work cooperatively with emergency management and law enforcement officials to ensure training is effective and appropriate, as well as consistent with local municipal disaster plans.

Additional examples of training or awareness refreshers that may be performed include:

- Evacuation Procedures
- Shelter In Place Procedures
- Lockdown Procedures
- Secure Lockout Procedures
- Medical/AED Emergencies Refreshers (response to foodborne/airborne illness)
- Emergency Response Team Instruction or Rehearsal
- Communication Training & Validation
- Transportation Emergencies
- Public Information Scenarios
- Early Dismissals/Non-Scheduled Parental Release
- Reviewing the Roles & Responsibilities of the Emergency Chain of Command Implementation

***SECTION 2:* GENERAL EMERGENCY RESPONSE

F

F. PROCEDURES FOR THE REVIEW AND CONDUCT OF DRILLS AND OTHER EXERCISES TO TEST THE COMPONENTS OF THE PLAN.

The Charter School for Applied Technologies District, in coordination with local and county emergency responders, will conduct and review drills that are components of the Comprehensive District Wide Multi-Hazard Plan. The Charter School for Applied Technologies District will annually prioritize and schedule drills in conjunction with local and county officials. At the completion of any scheduled drill, the Charter School for Applied Technologies District and local and county emergency responders will conduct an after action review of the sequence of events, and will update the Multi-Hazard Plan to reflect lessons learned.

The Charter School for Applied Technologies District will perform Emergency Drills in compliance with Commissioner's Regulations relating to school safety plans amendment of section §155.17 dated July 31, 2024.

Emergency drills will be conducted as required in the following manners:

1. Drills and training be conducted in a trauma informed, developmentally, and age-appropriate manner.
2. Drills and training will not include props, actors, simulations, or other tactics intended to mimic a school shooting, incident of violence, or other emergency.
3. Students and staff will be informed when a school is conducting a drill.
4. Drills will not occur until after annual training of emergency procedures have been provided to students and staff.

Schools will establish procedures for notifying parents and/or persons in parental relations when conducting drills within a week before each drill.

Definitions:

Trauma means an emotional response to a deeply distressing or disturbing experience such as violence, natural disaster, abuse, neglect, or loss.

Trauma-informed means an understanding of trauma and how it affects the physical, emotional, and mental health of students and adults.

Trauma-informed drills mean avoiding tactics in training or drills that may introduce or activate trauma, such as the use of props, actors, simulations, or other tactics intended to mimic a school shooting, incident of violence, or other emergency, or inclusion of developmentally or age-inappropriate content. Drills may inadvertently prompt a negative emotional or psychological response in staff or students because of previous exposure(s) to trauma.

PROCEDURES FOR THE REVIEW AND CONDUCT OF DRILLS AND OTHER EXERCISES TO TEST THE COMPONENTS OF THE PLAN. (continued)

Schools and districts that opt to participate in full-scale exercises in conjunction with local and county emergency responders and preparedness officials and include props, actors, or simulations or other tactics intended to mimic a school shooting or other act of violence or emergency shall not conduct such exercises on a regular school day or when school activities such as athletics are occurring on school grounds. Such exercises may not include students without written consent from parents or persons in parental relation.

After Action Reviews (AAR) should include perspectives from representatives of all exercise participants, with emphasis on community responders and subject matter experts. A properly conducted AAR will seek to document three important aspects of the event/training.

The three aspects should include:

1. What went well? Positive reflections of the good things that happened. (Things to reinforce).
2. What needs improvement? Reflections upon the things that will require additional improvement and practice.
3. Identify the important issues or key aspects of any given event or drill. Individuals should be encouraged to offer a potential course of action when identifying deficiencies.

Events that should be reviewed for lessons learned may include:

- Evacuation / Fire Drills
- Shelter In Place Drills
- Lockdown Drills
- Secure Lockout Drills
- Medical/AED Emergencies Refreshers
- Emergency Response Team Instruction or Rehearsal
- Communication Checks / Validation
- Transportation Emergencies
- Public Information Releases (Actual or Notional)
- Early Dismissals / Non-Scheduled Parental Releases
- Any event that requires the deployment of local emergency response personnel. (i.e. Fire Alarm, Ambulance Call, Arrest on Campus)

G. TABLETOP EXERCISES

What are they?

An activity in which key staff are presented with simulated emergency situations without time constraints. Key staff should include school personnel, local and county emergency officials.

The exercise should be:

1. informal
2. carried out in a conference room environment
3. designed to elicit constructive discussion by participants as they attempt to examine and then resolve problems based on existing plans
4. beneficial for participants to evaluate plans and procedures and to resolve questions of coordination and assignment of responsibilities in a non-threatening format with minimum stress.

The Process

The tabletop, in its simplest form, begins with a simulated event that is usually described in a narrative.

The Purpose

To create for the players an “emergency” scene to which they will respond. Response is made to a set of problems related to the emergency scene.

Discussion

Takes place among the participants to solve the problems presented using the resources available to them.

Deliberate Attempt

To examine basic emergency planning and resource allocation problems without concerns for:

1. time pressures
2. stress
3. actual simulation of specific events
4. the ability to discuss decisions in depth with an emphasis on slow-paced problem solving rather than rapid, spontaneous decision making.

CIVIL DISTURBANCES

Sections 3140 - 3149

**New York State Education Department
Bomb Threat Response Guideline
Revised February 2007**

General

- A bomb threat, even if later determined to be a hoax, is a criminal action. No bomb threat should be treated as a hoax when it is first received.
- The decision whether or not to evacuate is dependent upon information received in the threat, and how credible that information is.
- Two alternatives to evacuation are *compartmentalization* and *pre-clearance*.
- Compartmentalization relies on students remaining in their present locations while school administration and authorities assess and investigate the threat. Variations of compartmentalization – such as moving certain segments of the school population based upon new or developing information – can also be utilized in an effective response.
- Pre-clearance relies on anticipating a threat, and conducting pre-clearance and security screening. (see page 3).

Receiving Bomb Threats

Written Threats

- Contact Police (911)
- Anyone receiving a written bomb threat must immediately notify the school building administrator.
- Handling of written bomb threat should be kept to an absolute minimum, since it may be used as evidence in a criminal investigation.
- Fingerprints may be taken from the note to help determine its source.
- A threat written on a bathroom wall, mirror, or stall should not be removed until it is viewed or documented (photographed) by law enforcement.

Telephone or Other Verbal Threats

- Contact Police (911)
- Anyone receiving a written bomb threat must immediately notify the school building administrator.
- The **NYSP Bomb Threat Instruction Card** should be placed next to telephones that are most likely to receive such calls.
- The bomb threat caller is the best source of information about a possible bomb.
- It is desirable that more than one person listens in on the call.

- Persons likely to receive a threatening call (switchboard) should receive special training and have a list of emergency agency telephone numbers available, as well as the telephone numbers of school officials to be immediately contacted.
- If possible, the telephone threat should be taped.
- Caller identification or other types of tracing devices should be considered.

Information to be asked of the caller includes:

Where is the bomb located?

When will the bomb go off?

What does the bomb look like?

What kind of explosive is involved?

Why was the bomb placed?

What is your name? (The caller may be caught off guard and give you his or her name).

- Also note: time of call; language used by caller; gender; approximate age; speech characteristic (slow, fast, soft, disguised, intoxicated); noticeable background noise (music, motors running, street traffic).

Suspicious Packages

- Contact Police (911).
- Anyone receiving a suspicious package must immediately notify the school building administrator.
- Mail bombs can be contained in letters, books, and parcels of varying sizes, shapes, and colors.
- Letter bombs may feel rigid, appear uneven or lopsided, or are bulkier than normal.
- The container is irregularly shaped, asymmetrical, and has soft spots and bulges.
- There may be oil stains on the wrapper. The wrapper may emit a peculiar odor.
- The package may be unprofessionally wrapped and be endorsed with phrases such as “Fragile – Handle with Care,” “Rush – Do Not Delay,” “To Be Opened in the Privacy of _____,” “Prize Enclosed,” or “Your Lucky Day is Here.”
- There may be cut and paste lettering on the address label.
- The package may have no postage or non-cancelled postage.
- The package may exhibit protruding wires, foil, string, or tape.
- The package may emit a buzzing or ticking noise.
- A suspect letter or package may arrive immediately before or after a telephone call from an unknown person asking if the item was received.

Do not open or squeeze the envelope or package.

Do not pull or release any wire, string, or hook.

Do not turn or shake the letter or package.

- Do not** put the letter or package in water or near heat.
- Do not** touch the letter or package, thereby compromising fingerprint evidence.
- Do** move people away from the suspected envelope or package.
- Do** notify the state and/or local police (911).
- Do activate your emergency plan for dealing with bombs.**

Investigating Bomb Threats

- Appropriate law enforcement agencies must be notified.
- Be aware of availability and limitations of specialized emergency services-including bomb squads, hazardous materials management, county, and state emergency management agencies.
- Be aware that law enforcement agencies generally do not initially send out bomb sniffing dogs.
- Bomb sniffing dogs have a limited time of efficiency so that their use is carefully considered.
- The school district administrator makes the decision regarding evacuation, continuation, or dismissal of school – first responders can assist and should be consulted to make the decision (joint decision making – unified command).
- Police may enlist the assistance of the school faculty/staff who are familiar with the building and can recognize objects that do not belong or are out of place.
- Scanning does not involve touching or handling a suspect object.
- Once the incident has been resolved and no longer poses a danger, a full threat assessment inquiry should be conducted on the person making the threat if one is identified.

PRE-CLEARANCE AND SECURITY SCREENING IN LIEU OF EVACUATION (DURING TESTING)

- It is strongly recommended that school officials carefully coordinate this option in cooperation with local law enforcement officials.
- This option may only be implemented prior to the receipt of an actual bomb threat,
- Only after building and grounds have been “cleared” at the start of the day and continually monitored throughout the day.
- This option may be appropriate when a school reasonably anticipates the receipt of a bomb threat or if there is a particular concern over the possibility of a bomb threat. (During the administration of Regents examinations or during other school-wide events).

School Employee Involvement

- Schools may form teams of volunteers from administration, faculty, and staff to assist in sweeping a building or grounds for anything that looks out of place.
- Prior to an incident, school officials should make certain that people who volunteer in the school building, such as parents or other community members, are trained and aware of their responsibilities.
- School employees who volunteer or by job duty are assigned to assist, should have access to building keys, floor plans, and information about shut-off valves for heat, electricity, water, and ventilation (HVAC) or access to designated employees with these resources.

MEDICAL EMERGENCIES

Sections 3150 - 3151

GENERAL GUIDELINES FOR MEDICAL EMERGENCIES

<u>Response Action</u>	<u>Person(s) Responsible</u>
1. Summon help or request someone call for help	First person on scene
2. Identify the stricken person	First person on scene, trained medical personnel
3. Protect the injured or ill person from further injury	First person on scene, trained medical personnel
4. Comfort the victim and administer first aid, if necessary	Trained medical personnel
5. Assess the need for further medical attention	Trained medical personnel
6. Notify Building Administrator	Trained medical personnel
7. Notify parent or guardian	Building Administrator

RECOMMENDATIONS:

The response to a medical emergency depends on the nature of the emergency and the number of students and/or staff involved. If many students and staff become ill (e.g., vomiting, diarrhea, fainting, etc.) during the school day, it may be reasonable to suspect that a common cause is involved (e.g., food poisoning, airborne hazard). It can be reasonably expected that the greater the number of students and staff involved, the greater the response.

In each case, the guiding principles are to provide appropriate emergency care until competent medical or parental care is secured. Emergency care is not authorized beyond proper first aid. First aid is treatment such as will protect the life and comfort of the victim until authorized medical treatment is available or, in the case of a student, until the child is placed under the care of the parent or guardian.

Signed instructions for emergencies from parents, guardians and from school personnel should be on file in the school medical office and the school main office. These signed statements should include the name and age of the person (pupil or employee) name, address and telephone number where one or both parents may be reached at home and at work; name, address and telephone number of another person who has agreed to care for the child if the parent cannot be reached; name, address and telephone number of the family physician (or Christian Science practitioner), family dentist, and preferred hospital; written authorization from the parent for school personnel to call the physician or hospital in serious emergencies when the parent cannot be reached; religion of the victim; and any special condition which should require special handling.

A list of all students and staff having special medical problems such as hypersensitivity to allergens, diabetes, epilepsy, etc. will be maintained by the Nurse and available during an evacuation with the materials taken out of the building.

SCHOOL BUS ACCIDENT AND/OR FIRE

C. PARENT(S)/SPOUSE(S) AND RECEPTION CENTER NOTIFICATION PLAN

Utilize telephone lists or television and radio media to notify parents and spouses of an emergency involving an occupied school facility.

Designate a reception center at a location away from the incident. Provide this information during the notification process.

Several factors should be considered when selecting a reception center. They are as follows:

Physical Space:	Select a site that will accommodate a large influx of people to include parents and/or spouses and district representatives.
Containment:	Ensure that the site does not permit access by the media and is isolated from the Incident Command Post (I.C.P.), Emergency Operation Center (E.O.C.), and student body.
Necessary Accommodations:	Select a location that permits direct access to rest rooms and telephones and allows for the serving of refreshments. Several rooms should be made available for grieving family members and counseling sessions.
Support Personnel/Agencies:	If the situation warrants, station counselors, members of the clergy, medical personnel and Critical Incident Stress Debriefing Team at the reception center. A law enforcement/emergency services representative should be at the site also.
Dissemination of Information:	The Superintendent of Schools should assign, in advance, a staff member as the liaison/information specialist to work with the parents/spouses during a crisis. The individual assigned this duty must assume responsibility for arranging the details and providing accurate, up-to-date information regarding the incident.

**THREATS OF VIOLENCE IN THE SCHOOL:
NOTIFICATION TO PARENT/GUARDIANS**

SAMPLE

Dated: XX

Dear Parents/Guardians:

Due to recent events which have occurred in schools throughout the country, our school district has placed renewed efforts and priority on helping to ensure a safe and secure school environment for the students and staff, and to implement measures to prevent school violence.

We are asking for your cooperation in helping us address the issue of violence in our schools. It is only through cooperation with the home that the schools can be successful in implementing appropriate standards of student behavior.

Attached to this letter is a copy of our School District Policy addressing Threats of Violence in the School. We have also enclosed for your review a copy of a summary of the *Code of Conduct for the Maintenance of Order on School Property* which provides a list of sample proscribed activities (which is not intended to be exhaustive), as well as the range of disciplinary actions which may be taken. The complete *Code of Conduct* shall be available upon request.

Effective immediately, if your child threatens violence against others, whether staff and/or students, or makes threats involving the school or school buildings, he/she will face immediate disciplinary action as well as possible referral to local law enforcement agencies.

Additionally, the school district retains the right to seek restitution for any costs or damages incurred as a result of a student's actions and/or threats, such as the evacuation of the school building.

We are requesting that you discuss with your child the importance of his/her cooperation in reporting threats of violence against others, suicide threats, or threats involving the school building by calling the school hotline or reporting the threat to faculty members or the building principal.

Please discuss the attached Policy and *Code of Conduct* summary with your child, and sign and return the bottom portion of this form to the classroom teachers within the next seven (7) days.

Sincerely, XX, Principal

Please detach and have your child return to his/her classroom teacher.

My child, _____, and I have read, discussed and understand the Policy addressing Threats of Violence in the School and the *Code of Conduct* summary.

EMERGENCY CLOSINGS

The superintendent is empowered to close the district schools, delay the opening, or to dismiss students early in the event of hazardous conditions, including weather, which threaten the safety of students.

In making the decision to close schools, either the superintendent or his/her designee shall consider many factors, including the following:

- 1) The availability of parent(s)/guardian(s) to receive the student at home in the event schools should be dismissed early.
- 2) The health and safety of students remaining in a school environment.
- 3) Weather conditions, both existing and predicted.
- 4) Driving and traffic conditions affecting public and private transportation facilities.
- 5) Continuance or discontinuance of the operations of business, commercial and professional people in the area.

Facts will be assembled from the appropriate agencies and organizations before any decisions are made. For example, the Highway Department, Police Department, Weather Bureau, transportation companies and other governmental agencies, as needed, will be called.

Following the decision, communications will begin for the total notification of the students and staff. Either the superintendent or his/her designee shall notify the public media. Employees should listen to broadcasts beginning at 6:00 o'clock a.m. Any employee who is doubtful about reporting should contact his/her immediate supervisor.

Delayed School Plan

When it appears likely that weather and/or street conditions will improve later in the morning, a "delayed school opening" announcement may be made to the public. Employees shall make an effort to report to their assignment at the regular starting time.

"A" Schedule (One hour delay in all school starting times):

All schools will begin one hour later than normal starting times and dismiss at regular time.

"B" Schedule (Two hour delay in all school starting times):

All schools will begin two hours later than normal starting times and dismiss at regular time.

Early Dismissal School Plan

When a sudden, unanticipated emergency condition, including weather alert, arises after school has commenced, and it is deemed appropriate to close schools and offices, the following actions will be followed:

- 1) The media will be called and the public will be informed of the decision.
- 2) Schools will be dismissed with dismissal time arranged to parallel the arrival of buses. No staff member may leave his/her assignment until all students have left the building (unless authorized to do so by the principal).
- 3) Elementary students can be released to the custody of their parent/guardian or another designated adult.

Staff Assignments

The superintendent is responsible for the effective operation of the school district at all times. Under Education Law, Sections 1711 and 3012, the superintendent is empowered to require certain groups of employees to work while other employees are not required to work because the absence of students reduces the productivity of these employees.

When schools are officially closed for students due to inclement weather or other emergency conditions:

- 1) In general, school-based personnel will not report with the exception of the building plant operators, custodians, maintenance, and janitorial staff, as per negotiated agreement.
- 2) The Superintendent of Buildings and Grounds, the transportation supervisor and the superintendent will report to work, along with other designated employees.
- 3) Principals will remain responsible for security of their schools and for seeing that the building and grounds are made as ready as possible for school on the next scheduled day.

Parent/Guardian Notifications

Principals have the responsibility to urge parents/guardians to make plans for the emergency supervision of their children should an all-day closing, a delayed opening, or an early closing of school be necessary.

Radio announcements or telephone trees may be used to notify staff members.

School Bomb Threat Reporting Form

In 1999, the Office of Facilities Planning started collecting data on school bomb threats via a reporting form included in the February 1999 school bomb threat guidance document issued by the State Education Department and the State Police. This process predated the Uniform Violent Incident Reporting (UVIR) process mandated by Project SAVE – which also includes school bomb threat data.

Since the UVIR system is now operational, please note that we are no longer accepting the 1999 bomb threat reporting form. Please report all bomb threat data annually on the UVIR. This will eliminate duplicate work by both school and SED staff. For additional guidance on the UVIR, please see: <http://www.emsc.nysed.gov/sss/SAVE/>.

MEMORANDUM OF UNDERSTANDING BETWEEN THE

_____ **POLICE DEPARTMENT AND**

THE _____ **SCHOOL DISTRICT**

PROJECT “SAVE” (Safe Schools Against Violence in Education)

While violence isn’t the only safety issue schools face, the past decade has witnessed numerous acts of tragic violence in schools in all parts of the nation. Since 1992, twenty-two schools throughout the country have experienced multiple victim homicides. In the last three years alone, nine acts of violence on school grounds have resulted in the deaths of twenty-five students and four teachers, and the wounding of another seventy-two students and three school employees. These senseless acts of violence have occurred in urban, suburban and rural communities where people previously believed that such an incident could not happen in their schools. Fortunately, no school in New York State has been the site of the types of horrific violence that have occurred in other schools throughout the nation.

New York State schools, however, are not free of the types of violent student behavior and student victimization that seriously impede the educational progress of students. The 1999 Youth Risk Behavior Survey (YRBS), conducted by the Centers for Disease Control and Prevention, was administered to a representative sample of students throughout New York State high schools. The survey results document the continued presence of safety concerns on the part of many students. Students being threatened bodily harm by beating or with a weapon on school property, bringing weapons to school for protection and students not attending school due to concern for their safety were reported in the survey.

The “SAVE” legislation requires school districts to work collaboratively with local law enforcement agencies to develop strategies that will create an environment that will be conducive to the learning and teaching process.

GENERAL STATEMENT

The _____ Police Department and the Board of Trustees for the _____ School District recognize that the abuse of alcohol and other drugs and the threat to personal safety are societal problems and the remediation of these problems must begin at the community level. These two groups pledge to adopt a formal

“Memorandum of Understanding” that will outline for both the rights and responsibilities each will assume to affect positive change.

Both parties agree that as we ask school personnel to take a more active role in observing the behavior of students and to make decisions about the appropriateness of that behavior, that the role of students, teachers, staff and the law enforcement officials involved must be clearly understood.

PROCEDURE

Any student or school district employee will immediately report any of the aforementioned noncompliance of the school district “Drug Free Policy” and “Gun Free Policy” directly to the Building administrator. The Building Administrator shall have authority to take appropriate action immediately and will notify the Superintendent as soon as is reasonably possible.

MEMORANDUM OF UNDERSTANDING

The _____ School District and the _____ Police Department agree to work collaboratively in developing a “Memorandum of Understanding” that addresses the following:

- 1) The types of incidents that require notification of the police department.
- 2) The expectations of the students, counselors, teachers and administrators regarding the discovery of alcohol and other drugs, or weapons in school, on school grounds or at school sponsored activities.
- 3) The notification process necessary when a student is found in possession of alcohol, illegal drugs or dangerous weapons.
- 4) The procedures outlining the actions of law enforcement officers when contraband is turned over to them by school officials.
- 5) The procedures by which students and parents will be notified of the adoption of this Memorandum of Understanding.

POLICE DEPARTMENT ACTION

- 1) The Chief of Police agrees that any officer responding to the school shall act responsibly to ensure that a trusting relationship is fostered with all school personnel.
- 2) The police will respond to any call relating to violations of the law as soon as is reasonably possible.
- 3) If a student is arrested, notification of parent/guardian will follow the District “Code of Conduct” policy.
- 4) In instances where the removal of the student is essential to insure the safety of himself/herself or others, the police will do so immediately and work with the school district to contact the parent/guardian as soon as is reasonably possible.

- 5) The police will remove any confiscated illegal drugs, drug paraphernalia or dangerous weapons in possession of the school administration.
- 6) The police will cooperate with the school to ensure that the education process is not disrupted whenever possible.
- 7) A designated officer will be appointed to serve on the district "Building Level SAVE Team. (Liaison)
- 8) School Administration will be notified by the police regarding incidents that were reported but not by school administration.
- 9) All police personnel will receive a copy of the procedures

ACTIONS OF SCHOOL PERSONNEL

- 1) The school district will have a procedure in place that will be used to report incidents of abuse, possession of alcohol or drugs, drug paraphernalia and dangerous weapons to school administration.
- 2) All school personnel will receive a copy of the procedure.
- 3) The Building Administrator/Designee is authorized to call the police liaison to report any illegal activity or need for assistance.

WHAT SHOULD BE REPORTED TO THE SCHOOL ADMINISTRATOR

- 1) Possession of alcohol by a minor.
- 2) Possession of illegal drugs or misuse of over the counter drugs.
- 3) The possession of drug paraphernalia.
- 4) Students suspected, found, or admitting to being under the influence of alcohol or other drugs in school or at school sponsored activities.
- 5) The possession of any firearm or other illegal weapon on school property or at school sponsored activities.
- 6) Any time there is a threat of severe bodily harm or homicide to anyone on school property or at school sponsored events.

WHAT SHOULD BE REPORTED TO THE POLICE

- 1) Possession of alcohol by a minor aged 16-20 years old.
- 2) Possession of illegal drugs to include inhalants, marijuana, cocaine, crack, heroin, LSD, PCP, amphetamines, all steroids and designer drugs.
- 3) Any student in possession of or under the influence of alcohol or other drugs for whom a parent or immediate family member cannot be contacted.
- 4) Intoxication of any student that is deemed to be a behavior or safety problem to school personnel or other students or school property.
- 5) Possession of drug paraphernalia as described in the penal law.
- 6) Possession of illegal weapons.
- 7) Where there is a threat of bodily harm or homicide to anyone on school property or school sponsored events, the individual threatened may elect to file a formal complaint with the police department.

PREVENTION AND
INTERVENTION STRATEGIES

D

The Charter School for Applied Technologies recognizes the importance of good communication among students and between students and staff and encourages the school community to strive for improvement at all times. Sharing information is the first line of defense in keeping our schools safe. It is vital that our students understand that reporting information about potential problems is a way of preventing harm to another. Reporting concerns that may impact on the safety and health of others is the responsibility of the entire Charter School for Applied Technologies community.

Short-term and long-term strategies to bettering communication and preventing violence in our schools include:

- Set clear expectations for students, and communicate these standards to students, staff and parents
- Pay attention to what students are saying
- Peer listening and mediation
- Develop identification and reporting procedures to record students who show signs and symptoms of violent behavior
- Encourage communication among parents, students, staff and community members about any concerns to appropriate resource people in schools and communities
- Foster collaboration among school, home and community for peaceable schools
- Train staff to listen and question effectively

**E. DESCRIPTION OF DUTIES, HIRING AND SCREENING PROCESS,
REQUIRED TRAINING OF HALL MONITORS AND OTHER SCHOOL
SAFETY PERSONNEL.**

The process of establishing the duties for hall monitors and other school safety personnel shall rely on past practice or be completed by civil service with consultation of the Charter School for Applied Technologies District, or shall be determined by the Charter School for Applied Technologies District pursuant to applicable Federal, State, County and Municipal guidance. (Example found in appendix)

The Charter School for Applied Technologies District is an equal opportunity employer. The Civil Rights Act 1964 prohibits discrimination in employment because of race, sex or national origin. Public Law 90-202 prohibits discrimination because of age. Section 504 of the rehabilitation Act of 1973 prohibits discrimination on the basis of handicap.

The process of hiring hall monitors and/or school safety personnel will follow applicable Federal, State, County and Municipal laws & Guidelines. The qualifications for such positions will be established by civil service when applicable or by the Board of Trustees. On or after July 1st, 2001, all newly hired school personnel will be required to submit two sets of fingerprints for the purpose of background checks, consistent with the S.A.V.E. Legislation of 2000.

If the Charter School for Applied Technologies District uses the service of a contractual security company, the district should verify with the Department of State's License Bureau to ensure that the prospective contractor is an authorized employer in good standing.

The Charter School for Applied Technologies does employ the services of a School Resource Officer whose terms of employment are outlined in a memorandum of understanding in Appendix G

If the Charter School for Applied Technologies District, a public (exempt) entity, employs at least one security guard, then the district is subject to the Security Guard Act of 1992 (General Business Law § 89-f (5), (7)). Any public entity employing a security guard must ensure that the security guard is registered with the NYS Department of State. The Department of State will only register applicants who have satisfied the requirements established by the Secretary. Registration for a security guard is effective two years. No school district shall knowingly employ a person as a security guard unless: the school district has verified with the Department (State) that such person possess a valid registration card which has not expired or been revoked; or Such school district has filed with the Department (State) in a manner prescribed by rules and regulations promulgated by the Department. (Duties of a security guard and requirements and of a NYS Security Guard License are included in

the appendix) A district employing a security guard must provide proof of self-insurance or liability insurance coverage to the Department of State in the Amount of \$100,000 per occurrence and \$300,000 in the aggregate (General Business Law § 89-g (6)). A licensed security guard in New York State must undergo an Investigation. Within five business days after the receipt of an application the department (state) shall transmit to the division (DCJS) two sets of fingerprints and the fee required pursuant to paragraph (b) of subdivision ten of section eighty-nine-h of Gen. Bus. Law and cause to be conducted a search of state files to ascertain whether the applicant has been charged with or convicted of a serious offense and may cause to be investigated to verify the information contained in the application provided. Under section 89-o of the General Business Law, the secretary of state is empowered to adopt rules and regulation implementing the provisions of this article. Such rules and regulations shall include criteria for determining whether a person is a security guard or whether a particular function is a security guard function as defined by subdivision six of section eighty-nine –f of this article.

MINIMUM QUALIFICATIONS:

- A. Graduation from high school or possession of a high school equivalency diploma; or four (4) years' experience in the care and supervision of children; or
- B. An equivalent combination of training and experience as defined by the limits of (A.) and (B.)

NOTE : Verifiable part-time and or volunteer experience will be pro-rated toward meeting full-time experience requirements

NOTE: A person assigned to this position does not have the authority to direct traffic. This is the function of a police officer only.

Job Description – Security Guard

Provided by the NYS Department of State

Description

A security guard is defined as a person employed within New York State, other than active police officers and federally regulated personnel, to principally perform one or more of the following duties without performing the functions of a private investigator.

Protection of individuals and/or property from harm, theft or other unlawful activity;

Deterrence, observation, detection and/or reporting of incidents in order to prevent any unlawful or unauthorized activity including but not limited to unlawful or unauthorized intrusion or entry, larceny, vandalism, abuse, arson or trespass on property;

Street patrol service;

Response to but not installation or service of a security system alarm installed and/or used to prevent or detect unauthorized intrusion, robbery, burglary, theft, pilferage and other losses and/or to maintain security of protected premises.

Registration Requirements

An applicant must file an application with the New York State Department of State's Division of Licensing Services in order to become registered as a security guard. In addition, the applicant must meet the following requirements:

Complete a minimum of 8 hours of pre-assignment training

Not have been convicted of a serious offense

Be of good moral character and fitness

Not have been discharged from a correctional/law enforcement agency for incompetence or misconduct

Individuals that meet these qualifications, and those indicated below will be issued a photographic ID card signifying that they are authorized to perform security guard functions. Since these ID cards are made by the Department of Motor Vehicles (DMV) using the image on file in their office from the individual's NYS Driver's License or Non-Driver ID card, applicants must provide their 9-digit DMV ID number where requested on their Security Guard application. Once their Security Guard application is approved for registration, the applicant's name and DMV number are sent to DMV to have an ID card made. The Department of Motor Vehicles will mail the ID card to the applicant's residence address on file with the Department of State.

**CHARTER SCHOOL FOR APPLIED TECHNOLOGIES
ADMINISTRATIVE REGULATION**

**UNEXPECTED DEATH GUIDELINES
Unanticipated Death of Student/Staff Member**

NOTE: The following will outline the procedures to be followed in the event of a death within the district.

1. As soon as a principal learns of a death, he/she will contact local officials and/or family members to CONFIRM the facts. Upon confirmation, the school will implement a coordinated crisis response to achieve the following:
 - a. Effectively manage the situation.
 - b. Provide opportunities for grief support.
 - c. Maintain an environment focused on normal educational activities.
 - d. Help students cope with their feelings.
 - e. Minimize risk of suicide contagion (if the student died by suicide).
2. As soon as the school official CONFIRMS the death, he/she will immediately inform:
 - a. **Superintendent** Andrew Lyle 716-462-9928
Deputy Superintendent Garrick Loveria 716-392-1336
 - b. **Principals** (K-5) Susan Jurewicz 716-462-0473
(6-8) Patrick Heyden 716-290-3787
(9-12) Brett Lutterbein 716-732-8539
 - c. **Trauma Response Team**
 - i. All members will be notified and asked to report to the building affected by the death of the student/staff member by 7:00am the following day.

District	Elementary School	Middle School	High School
Michael Walter 716-449-0158	Yaritza Draine 716-957-2584	Jeanette Fanara 716-544-4139	Dianna Taylor 716-602-4125
Kara Oliver-Perez 716-225-8533	John Bresnock 716-836-6288	Stephen Anastasia 716-982-9594	Richard Diaz 973-572-7304
Emily Lyons 716-954-3239	Tara Jefferson 716-720-3436	Amy Kuty 716-720-3436	Sarah Monaco 716-725-7664

Sarah Kucharski 716-208-0031 Gateway Longview			Kari Piazza 716-572-7757
Kristen Clamp 716-604-8711 Gateway Longview			Sybria Laney 716-390-6769

When contacting the family:

- a. Offer condolences.
 - b. Inquire as to what the school can do to assist.
 - c. Ask them to identify the student's closest friends that may need support.
 - d. Discuss what students should be told and respect their wishes.
 - e. Inquire about funeral arrangements and make sure it is okay to share with students.
 3. Outside Consultants will be notified on a as needed basis.
 - a. **Crisis Services Trauma Response Program**, (716) 834-3131
 - b. **The Center for Hospice and Palliative Care** (716) 686-8007
 - c. **Gateway Longview** (716) 783-3100
 4. The principal will immediately call a meeting of members of the Trauma Response Team, teachers of the student, fellow administrators and identified professional support personnel to plan the first day.
 5. Initiate a **One Call Now** in the specific building(s) to schedule an early morning meeting at 7:00 a.m. to briefly address the staff.
- During the meeting:
- a. Principal will share accurate and factual information and will be respectful in regard to what the family has requested be shared.
 - b. A script will be provided to all teachers to read to students at the start of the school day. In the event a teacher feels they are unable to do this a member of the Trauma Response Team will assist.
 - c. Teachers will be provided with a tip sheet to help with any difficult conversations.
 - d. A member of the Trauma Response Team will be assigned to follow the deceased student's schedule to monitor peer reactions and answer questions. It is also important to monitor staff reactions as well and provide relief when needed.
 - e. Substitute teachers will be available as "floaters" to be a support for teachers and staff. (not required but recommended)
 - f. An email will be sent to all K-12 staff with the facts of the situation. A reminder to all staff that all information is to be kept confidential.
 6. School will not be closed. It is important that the grieving process within the school-family be allowed to occur. The school will also provide a sense of structure and routine, one of the elements necessary to promote healing.
 7. The principal or his/her designee, accompanied by a witness, will check the desk(s) the student sat in and the student locker(s) (hall, gym, etc.) before school. *If the death was not an accident the police should be present for the desk/locker search.*
 8. Friends, siblings and teachers of the deceased who may be in other schools in the district should be informed, and plans made to assist them.

NOTIFYING STUDENTS:

1. A scripted announcement of the death will be created, typed, and distributed. This is to be **read by homeroom teachers** at the start of the school day.
 - a. In the event the staff member is unable to read the statement a member of the Trauma Response Team or a member of administration will assist with this.
 - b. In the event the school is notified of a death during the school day the principal will confirm with the family. The Trauma Response team will meet to identify the student's teachers and close friends. Those teachers will be notified

- personally while their class is covered by a member of the Trauma Response Team. Once these teachers know, an announcement will be made for all teachers to check their email which will give them the details of the death. Teachers will be instructed to read a script to the class at that time.
- c. An announcement of the death **will not** be shared over the announcements or in a large group assembly.
 - d. Students should be informed in a manner appropriate for their developmental level. Who informs who will be decided by the building principal, in consultation with his/her Trauma Response Team, fellow administrators, and identified professional support personnel.
2. Students who are overcome, or who cannot handle the classroom setting and who are felt to need individual or small group assistance by mental health staff, should be escorted to a designated area in the building where support staff will be available.
 - a. On the first day, **DO NOT** announce availability of counseling services over the PA system as many times students are just curious about what is going on.
 - b. Teachers should make the decision on an individual basis about who will leave the classroom for the counseling services.
 - c. Announcements over the PA system on the second and third day are acceptable.
 - d. Do not assume everyone or most students will need help. Most students will cope effectively without professional assistance.
 - e. Students availing themselves of counseling services will need to sign in to keep a record of high-risk students. Keep daily contact with these people and notify the parents of any students who are high-risk.
 3. A CONFIDENTIAL memo will be distributed to the faculty as soon as reasonable to assist teachers and inform them of key issues. (See attached sample memo.)
 4. The principal, the superintendent or their designees will be the only persons authorized to talk with representatives from the media.
 - a. Scripted phone messages are recommended.
 - b. Media will be escorted on school property and briefed of the crisis by district public relation officials or administration. **Media will not be granted access to interview teachers or students on school property.** The Superintendent or his/her designee will coordinate the control of traffic and access to the school buildings.
 5. Group memorial plans and other forms of grieving should be allowed to evolve under the guidance of the building principal, in accordance with the family's wishes.
 - a. Principal should contact the family to ask what their wishes may be regarding disclosure of funeral arrangements.
 - b. Students should be encouraged to provide appropriate individual memorials; send cards, flowers and/or messages of sympathy consistent with the family's wishes. **All items sent to the family from school must be reviewed by staff to ensure appropriate content.**
 6. Student after-school and athletic activities will **not be canceled**. It is important that the students have the opportunity to participate in scheduled activities.

7. Staff members from Crisis Services and The Center for Hospice and Palliative Care in Buffalo are available to work with all staff on the topic of “Death and Grief.”
8. It is important that what we do for one we do for all. We do not discriminate based on cause of death.

BEFORE THE CLOSE OF THE FIRST DAY:

1. An appropriate PA announcement should be made.
 - a. Thanking everyone; staff, students, etc.
 - b. Reiterate how tough it has been
 - c. Offer continued support
 - d. Offer sympathy to family and friends
 - e. Expected times of services, if family wishes (reminder of attending with a family member)

May I have your attention please. I wish to thank all of the students and faculty and staff for the support you have shown each other today. The example you have shown is a positive and healthy one and provides us the opportunity to work toward strengthening our relationships with each other. Please ensure you are all taking time for yourselves and doing things you enjoy. Lean on your support network and all the people that care about you, and lastly know that everyone here at CSAT is available to help and support you!

2. Letter to parent(s)/guardian(s) should be written and sent home:
 - a. See attached draft.
 - b. Administration may also decide to do a One Call Now to families in order to get information to them quicker.
 - i. See attached draft message.
3. At the close of the first school day following the death, the principal will have a faculty meeting allowing staff the opportunity to grieve (discuss their own feelings, reactions and issues) and to make recommendations for subsequent days.
 - a. Lists of high-risk students should be turned in.
 - i. Decide if the parents of those students should be contacted about their distress?
 - ii. Who will require individual follow-up?
 - iii. What teachers should be informed about at-risk behavior of certain students?

SECOND/THIRD DAY

1. Announcement at beginning of second day.
 - a. Opening statement on the crisis/death again
 - b. Thank you for support
 - c. Reiterate plan
 - d. Counseling center(s)
 - e. Memorials
 - f. End announcement in the cognitive realm

Good morning. I want to take this opportunity to welcome you all back this morning. I am sure for some of you it was tough to get here. Thank you for being here! (the rest of the announcement will focus on the supports available, funeral arrangements if applicable and the plan for the day). Please remember to support each other and know that we are all in this together.

2. Teachers/counselors continue observing behavior of students.
3. Classes will be flexible.
4. Counseling stations for individuals/groups in place (specific times and places).
5. The principal should be prepared to respond to the request for large numbers of staff and students who wish to attend the funeral. Staff members should attend. If a large number of students will be attending the funeral, please plan for staff to be present during the entire service.
 - a. The school will not provide transportation to a funeral or memorial service.
 - b. Parents will be encouraged to attend with their child.
 - c. Memorial services should not be held on school grounds. When possible, services should be held outside of school hours.

MEMORIALIZATION: (what is done for one student must be done for any student that has passed away regardless of the cause of death)

*The school's goal is to balance the students' need to grieve with the goal of limiting the risk of inadvertently glamorizing the death or causing additional distress to other students.

1. Yearbooks
 - a. If there is a history of dedicating the yearbook, or a page, to a student that has died, it will be the same for any student that has died regardless of the cause.
 - b. Final decisions should be made by the principal and mental health staff to ensure appropriateness. If the student died by suicide the focus should be on mental health and/or suicide prevention. (For example, "in your memory, we will work to erase the prejudice surrounding mental health problems and suicide").
2. Graduation
 - a. The school may wish to include a brief statement acknowledging and those students from the graduating class who have died.
3. Permanent Memorials
 - a. Recommendation is that they should be off grounds as it can be upsetting to bereaved students.
4. Clothing
 - a. All students will be in uniform. Students will not be allowed to wear shirts (or buttons) memorializing the student that died.
 - i. If a student shows up at school wearing a shirt to memorialize a student, they will be asked to change and not permitted to go to class.
5. Lockers – this will be approved by each building
 - a. Needs to be time sensitive and monitored for appropriateness by staff.
 - b. A statement will be posted near the memorial with the date it will be removed and given to the family. "We appreciate your gesture of remembrance for _____. Your tokens will remain here until _____, and then will be collected and give to the family."
 - i. This is to prevent students from feeling like the items were removed disrespectfully.

- ii. Items should be removed the day after the funeral.
- 6. Desks
 - a. There will be no memorials allowed at the student's desk(s).
 - b. After approximately five days (or after the funeral), seat assignments may be re-arranged to create a new environment.
 - i. Teachers should explain in advance that the intentions is to strike a balance between compassionately honoring the student who died, while at the same time returning the focus back to the classroom curriculum.
- 7. Creative options for school to honor a deceased student
 - a. Hold a day of community service
 - b. Make a book or notecards available in the school office for students to write memories and messages to the family. These items need to be reviewed for appropriateness prior to giving to the family.
 - c. Signing a poster to send to the family.
 - d. Raise funds to help the family of the deceased student.
 - e. If the student died by suicide the school can sponsor a mental health awareness day or develop and implement curriculum focused on social and emotional development.

SUGGESTIONS FOR ADMINISTRATORS AND/OR TRAUMA RESPONSE TEAM

1. Take time out for yourself and your own feelings.
2. Division of labor is crucial. Give specific school leaders jobs to do and let them do them.
 - a. Crisis Resource Team (counselors, nurses, principal, assistant principal)
 - b. Public Relations Person
 - c. Family Liaison Person
 - d. Telephone Response Person
 - e. Crisis Consultants
 - f. Community Liaison Person
 - g. Student Leaders
 - h. Substitute Teachers
3. Identify and use the resources.
4. Be careful of the media and social media.
5. Work with families involved. Identify a person to liaison between the school and the family.
6. Remember that different people have different needs. Try to have alternatives for people with different needs. Set up the crisis center and counseling rooms.
7. Prepare responses for "at-risk" students.
8. Help your staff first. Don't forget support staff.
9. Allow people to be real, to grieve. Appropriate role models are crucial. Be mindful of cultural differences in the grieving process. What appears unusual may in fact be typical for that specific culture. Acknowledge the different facets and feelings of grief. Give permission to grieve.

10. Don't make demands of staff. Let them do what they think they can handle with support.
11. Let everyone know the facts. Diffuse rumors.
12. Empower people as much as possible. Allow people to take positive action.

EMERGENCY MEMO TO TEACHERS and STAFF

The following information will, hopefully, help you through this most difficult day:

1. Don't cancel after-school or athletic activities. It is important to meet all student groups so that each group can handle the dynamics of the grieving process.
2. Both teachers and students need to support each other as much as possible.
3. Don't expect to get your usual amount or quality of work done. Try to teach, based on your feelings as well as those of your students. If it is not possible, a quiet class period is appropriate.
4. Establish your classroom routines as soon as possible, AFTER children have had a chance to express their feelings.
5. It is okay for a teacher to feel uncomfortable about dealing with this situation. Ask for help from the Trauma Response Team if you want it.
6. It is okay for teachers to show their feelings.
7. You may be overwhelmingly upset, especially if you have had contact with the student or staff member. There are professional support staff available to talk with you. If you cannot meet your classroom responsibilities, please inform administration immediately and coverage will be provided.
8. You should give mutual support to other staff.
9. Be aware of the **FACTS** regarding this situation in order to be able to counteract inaccurate rumors. If you do not know the answer to a question, do not assume facts or speculate. It's ok to say, "I don't have that information, but I will do my best to get it" and make all efforts to obtain the information being sought. If a student died by suicide, students, parents, and teachers will have persistent questions as to why the incident occurred. It's important to note that we may never have the answer to that question, and we must follow the family's wishes in regard to only sharing what they want us to. (please see section "Special Consideration for Students that Die by Suicide")
10. Expect the entire range of emotional reactions from hysterical behavior to joking. **MOST** reactions are normal. **Grief looks different for everyone!**
11. If a child expresses the feeling that he/she should have done something to prevent the death listen to what he/she has to say. Let him/her fully express himself, *and* then let him/her know he/she was not responsible. Normalize the guilt where appropriate.
12. Encourage students to identify people outside of school that they can talk to.

13. For those students who are extremely upset, designated areas have been set up in the building where professional support staff are available to assist them. Grieving students should not be in the corridors unsupervised, but rather sent to the designated areas. They will be returned to class when they are ready to handle it. The names of these students will be kept in a confidential log and:
 - a. Their parents will be notified immediately if there is significant distress and will be followed up by the mental health staff.
14. Many children may have to talk this through. Be open to students; continue to talk about the death until they “get it all out”. This may take a number of days, weeks or even months.
15. Do not be surprised if you find yourself dealing with a student who is re-grieving. The current death could trigger re-grieving the death of a family member, pet or friend.

CULTURAL CONSIDERATIONS

Key points involving cultural differences include the following:

- Be aware that the extent to which people are able to talk about suicide or death varies greatly in some cultures. Suicide is still seen as a moral failing.
- Be sensitive to the beliefs and customs regarding the family and community, including rituals, funerals, the appropriate person to contact.
- Be sensitive to how the family or the community may need to respond to the death before individuals outside of the family or community intervene to provide support.
- Consider using a “Cultural broker” to act as a liaison between the family, community and school if keep members of school staff are not from the same racial, ethnic, or religious group as the person who died.
- Bring interpreters and translators if there are language difference. If possible, have resource material in different languages available for parents.

NORMAL STUDENT REACTIONS

Primary school age:

- Blaming themselves for the death.
- Being easily distracted, forgetful.
- Being anxious; having increased fears such as the dark or others’ safety.

- Clinginess – wanting to be near you or others more.
- Withdrawing, being quiet, showing lack of response.
- Being fretful, distressed, not wanting to go to school.
- Feeling embarrassment; feeling different from others; may conceal their loss.
- Physical complaints, such as tummy aches or headaches.
- Being irritable, having more tantrums, being defiant, or developing antisocial or aggressive behaviors.
- Change in eating, sleeping and toileting habits.

Middle school age:

- Be especially anxious about the safety of family, friends and themselves.
- Try very hard to please adults and not them.
- Feel stronger emotional reactions, such as anger, guilt, sense of rejection.
- Want to take on more adult responsibility, trying hard to please.
- Become aggressive, defiant or irritable.
- Become more focused on what is happening and asking more questions.
- Increase anxiety and/or depression.

High school age:

- Being easily distracted, forgetful.
- Having difficulty concentrating at school.
- Being unsettled in class, a change in class performance, not wanting to go to school.
- Having difficulty expressing intensity of emotions, or conflict of emotions.
- Blaming self for death.
- Increased anxiety and/or depression.
- Withdrawn.
- Risk taking behaviors.
- Defiance, aggression.
- Changes in eating, sleeping and toileting habits.
- Possible suicide thoughts.

What can you do?

Bereaved children and teenagers will need ongoing attention, reassurance and support. It is not unusual for grief to resurface later on, even well after the death. This can happen as they move through different life milestones and develop as individuals.

- Be as honest as you can.
- Listen!
- Acknowledge feelings and emotions.
- Talk about grief and what it looks and feels like.
- Reassure any fears.
- Seek outside counseling.
- Allow them to grieve.

SPECIAL CONSIDERATIONS FOR STUDENTS THAT DIE BY SUICIDE

A death by suicide of a school-age student can attract a lot of media attention. It is important for schools to develop safe messages in order to avoid contagion.

The risk of contagion is related to the amount, duration, prominence, and content of media coverage. Therefore, it is extremely important that schools strongly encourage the media to adhere to the recommendations for safe reporting (please see attached document “Safe Reporting on Suicide”). It is also important to respect a family’s wishes about disclosing the cause of death.

These recommendations include:

- Do not glamorize or romanticize the victim or the suicide. Adolescents are vulnerable to the risk of suicide contagion, that is, when a struggling student experiences the loss of another student to suicide and becomes at greater risk. It is important not to inadvertently simplify, glamorize, or romanticize the student or his or her death.
- Do not oversimplify the causes of suicide.
- Do not describe the details of the method.
- Do not include photographs of the death scene or of devastated mourners, which can draw vulnerable youth who may be desperate for attention and recognition.
- Include messages of hope and recovery.
- Important to emphasize complexity of suicide, its connection to mental health concerns (for which there is treatment) and that there is no single cause for suicide.
- Consult suicide prevention experts.
- Include a list of warnings signs. (see attached list)
- List resources for parents. (see attached list)

Appropriate Suicide Language

Say This	Instead of This
Died by suicide Ended his/her life Killed himself/herself	Committed suicide
Suicide death Death by suicide	Successful attempt
Suicide attempt	Unsuccessful attempt
Person living with suicide thoughts or behavior	Suicide attempter

IDENTIFYING OTHER STUDENTS AT POSSIBLE RISK

In the face of potential contagion, it is important for schools to use mental health professionals and others who have been trained to identify students who may be at heightened risk for suicide due to underlying mental disorders or behavioral problems (e.g., depression, anxiety, conduct disorder,

and/or substance abuse) or who have been exposed to the prior suicide either directly (by witnessing the suicide or by close identification or relationship with the deceased) or indirectly (by extensive media coverage).

Of special concern are those students who:

- Have a history of suicide attempts.
- Have a history of depression, trauma, or loss.
- Are dealing with stressful life events, such as a death or divorce in the family
- Were eyewitnesses to the death.
- Are family members or close friends of the deceased (including siblings at other schools as well as teammates, classmates, significant others, and acquaintances of the deceased).
- Received a phone call, text, or other communication from the deceased foretelling the suicide and possibly feel guilty about having missed the warning signs.
- Had a last very negative interaction with the deceased.
- May have fought with or bullied the deceased.

TIPS FOR TALKING TO STUDENTS ABOUT SUICIDE

- Suicide is a complicated behavior and is not caused by one single event.
 - “The cause of (name)’s death was suicide. Suicide is not caused by a single event. In many cases, the person has a mental health or substance use disorder and then other life issues occur at the same time leading to overwhelming mental and/or physical pain, distresses, and hopelessness.”
 - “There are effective treatments to help people with mental health or substance abuse problems or who are having suicidal thoughts.”
- It is common to ask “why” after a suicide and can cause people to blame others.
 - “Blaming others or the person who died does not consider the fact the person was experiencing a lot of distress and pain. Blaming is not fair and can hurt another person deeply.”
- Do not focus on the method.
 - “Let’s talk about how (name)’s death has affected you and ways you can handle it.”
 - “How do we deal with your loss and grief?”
- Some may feel angry.
 - “It is okay to feel angry. These feelings are normal, and it doesn’t mean that you didn’t care about (name). You can be angry at someone’s behavior and still care deeply about that person.”

SAFE REPORTING ON SUICIDE

Key points:

- More than 50 research studies worldwide have found that certain types of news coverage can increase the likelihood of suicide in vulnerable individuals.
- Risk of suicide increases when the story explicitly describes the suicide method, uses dramatic/graphic headlines or images, and repeated/extensive coverage sensationalizes or glamorizes a death.
- Covering suicide carefully, even briefly, can change public misperceptions and correct myths, which can encourage those who are vulnerable or at risk to seek help.

DO THIS	INSTEAD OF THIS
Inform the audience without sensationalizing the suicide and minimize prominence (e.g. “Kurt Cobain Dead at 27”).	Big or sensationalistic headlines, or prominent placement (e.g. “Kurt Cobain Used Shotgun to Commit Suicide”).
Use school/work or family photos; include hotline logo or local crisis phone numbers.	Including photos/videos of the location or method of death, grieving family, friends, memorials or funerals.
Seek advice from suicide prevention experts.	Quoting/interviewing police or first responders about the causes of suicide.
Describe as “died by suicide” or “completed suicide” or “killed him/herself”.	Referring to suicide as “successful”, “unsuccessful”, or “failed attempt”.
Most, but not all, people who die by suicide show warning signs. Include what they are.	Describe the suicide as inexplicable or “without warning”.

Avoid misinformation and offer hope:

- Suicide is complex. There are almost always multiple causes, including psychiatric illness, that may not have been recognized or treated. However, these illnesses are treatable.
- Refer to research that mental disorders and/or substance abuse have been found in 90% of people who have died by suicide.
- Avoid reporting that death by suicide was caused by a single event.
- Use your story to inform people about the causes, warning signs and treatment available.
- Include up to date resources and advice that promotes help-seeking.
- Social media sites often become memorials to the deceased and should be monitored for hurtful comments and for statements that others are considering suicide.

SUICIDE WARNING SIGNS:

*The more of these signs a person shows, the greater the risk.

- Talking about wanting to die.
- Previous attempt
- Looking for way to kill oneself.
- Talking about feeling hopeless or having no purpose.
- Talking about feeling trapped or in unbearable pain.
- Talking about being a burden to others.
- Increasing the use of alcohol or drugs.
- Acting anxious, agitated or recklessly.
- Sleeping too little or too much.
- Withdrawing or feeling isolated.
- Showing rage or talking about seeking revenge.
- Displaying extreme mood swings.
- Acting as if they are “tying up loose ends”

What should you do?

- Do not leave the person alone.
- Remove any firearms, alcohol, drugs or sharp objects that could be used in a suicide attempt.
- Tell someone.
- Call Crisis Services (716) 834-3131
- Call the U.S. National Suicide Prevention Lifeline (800) 273-8255.
- Take the person to an emergency room for help.
- Call 911.

Dear Parent/Guardian

Last night, the CSAT community experienced a tragedy when a ____ grade student passed away in an untimely manner. (do not specify child's name or reason/cause of death)

This heartbreaking incident has profoundly affected many in the CSAT family, and therefore, we are providing notice to you that your child(ren) may also experience some reactions associated with this event. Should this be the case, please know that there are qualified staff (school counselors, social workers and outside crisis counselors) on hand to help students through this difficult time.

Students will have varied reactions to the death of a peer. Many different reactions are normal in the grief process and can range from withdrawal, to crying to anger. We encourage you to openly discuss with your child(ren) their reactions and feelings regarding this. Should your child need additional support please feel free to contact us.

We have enclosed for you some of the common reactions students may or may not exhibit following this type of event.

Thank you for your attention and take comfort in the fact that all of us here are committed to supporting one another through this trying time. Do not hesitate to contact us with any further concerns.

Sincerest regards,

Dear Parent/Guardian:

Our school community was saddened to learn of the death of [Name].(do not include cause of death) [Name] was an outstanding teacher (or add role) who cared very deeply about the success and wellbeing of each student here at CSAT. We will all miss [him/her] very much and will spend many difficult moments grieving [his/her] loss.

In order to support our students during this difficult time, we have arranged to have counselors available during the school day to assist students and faculty with the questions and grief which accompany such a difficult situation. Experiencing, witnessing, or even hearing of a traumatic incident such as this may affect a child or adult in a variety of ways; therefore, it is very important that students and teachers be given ample opportunities to ask questions and to talk about their reactions. For some students a death of someone they know may remind them of some other loss in their lives. For others, this may be their first encounter with death.

We suggest that you make an extra effort to listen to your child during this time. It is important that you deal honestly and directly with any questions that he or she may have. Referring to death as passing away may result in confusion and it is appropriate that you use the word “death” in your discussions. Should you have difficulty approaching this issue or if you would like additional information about talking to your child about death, we have material available at school and at our Family Support Center.

Please do not hesitate to contact the school if we can be of additional assistance to you and/or your child during this difficult time.

Sincerest regards,

CSAT Bus Accident Protocol

The Charter School for Applied Technologies receives transportation services from Buffalo Public Schools (BPS). The BPS terminal can be contacted at 716-816-4866. Students from other surrounding districts are bused by the residing school district's buses. In the event that a CSAT bus (excluding Metro) has been involved in an accident the following protocol will be followed.

1. Driver of bus immediately contacts terminal to inform bus dispatch that the bus has been involved in an accident.
2. Emergency responders are dispatched to the accident scene. The terminal makes a determination as to the severity of the accident and contacts 911 if necessary.
3. Bus terminal notifies CSAT regarding the severity of the accident and action that has been taken.
4. Administration makes decision whether to travel to accident site with Transportation Coordinator in order to obtain pertinent student emergency information and relay information to affected parents/guardian.
5. Administration notifies Director of Communication to prepare a response to School stakeholders or media.
6. If accident is not severe the bus travels to school and is met by school administration and nurse to verify condition of students.
7. Administration selects most appropriate form of communication with parent/guardians (automated phone message, note home, personal phone call).

Emergency Remote Instruction Plan

This document will support the school's transition to an alternative remote instructional model in the event that traditional in-person instruction is not an option as a result of emergency conditions such as a public health related closing. The Charter School for Applied Technologies (CSAT) does not shift to remote instruction in response to emergency closing due to unforeseen adverse weather events as the distribution required to ensure connectivity to all families could compromise staff and/or parent safety.

The K-12 guidance below will ensure continuity of learning that is equitable to all CSAT students and provides high levels of accountability for any online learning setting. Staff and students will be provided this information prior to any transition to a remote learning environment. The plan accounts for both device and connectivity access necessary to participate in both synchronous and non-synchronous instruction while also outlining expectations for staff and students during a shift to remote learning.

1. CSAT will ensure that computing devices are made available to students in order to participate in synchronous instruction.

CSAT operates in a true 1-to-1 device environment and budgets for and maintains a stock of devices to service all students up to its charter maximum enrollment number of 2365 students. Included in this figure and budget are alternate devices, repair costs and a replacement schedule for devices that are aging out. Students in grades 9-12 are provided a laptop at the beginning of the year and travel to and from school with it in their possession. At the end of the year all computers are collected for annual maintenance and reimaging then redistributed again at the beginning of the next school year. In grades K-8, laptops are stored with the schools but are immediately available for dissemination to all students once the superintendent has provided principals the directive that laptops should be distributed in anticipation of a shift to remote learning. Students in these grades are provided with a laptop, storage bag and ancillary charging cord. Parents and guardians of students in grades K-8 receive communication via automated call and text message that the school intends to shift to remote learning and that their child will be in possession of a school laptop moving forward. This information along with additional links to technical support is also provided on the school's website and posted to its social media accounts.

In general, service repairs on damaged devices are performed in-house by the CSAT Technology Department except for Apple products. Anytime that a device is returned to the school for repairs or replacement another 'loaner' device is provided to the student to utilize. All electronic equipment is internally catalogued and maintained on service schedule. Laptops are replaced on an annual five-year schedule as they age out of useful service.

2. CSAT will ensure that students have access to internet connectivity necessary to participate in remote instruction during emergency conditions.

Following the decision to move to remote instruction the CSAT Communications Department communicates with all parents/guardians that the school is shifting to remote instruction via automated call, text message and is also shared on the website and social media platforms. This communication also includes instructions to contact the school if the student/family has no internet access to determine who has internet connectivity sufficient to participate in remote instruction. Those who reply that they do not have connectivity are then contacted by the Family Support Center to determine if they qualify for a school provided hotspot at no charge. Hotspots are limited and ordered on an as needed basis. Hotspots have sufficient broadband capability to accommodate all academic functions.

Parents are also directed to local libraries and community centers when the school does not have access to hotspots by the Family Support Center so students are able to access online educational materials.

3. CSAT will define synchronous instructional expectations for school staff when emergency conditions necessitate a shift to remote learning. Additionally, CSAT will determine the percentage of daily instruction deemed non-synchronous instruction and supplemental in nature.

All staff are provided laptops by the school and have internet access at their residences. Should the school be made aware for a connectivity deficiency for staff then hotspots can be made available. All staff are trained on the usage of the Microsoft Teams platform which will be utilized to deliver and store all instructional materials during remote instruction. All classes will be pre-scheduled on calendars for ease of access during synchronous classes. All grade level (K-12) classes meet virtually (synchronously) during their regularly school class times and attendance is also taken. It is anticipated that synchronous instruction will compromise the entirety of the school day. There are also planned opportunities for students to work non-synchronously on independent tasks during school day. The time spent working on independent work varies somewhat based on the lesson/unit but is not anticipated to be longer than one hour per day. Independent assignments or homework are completed outside of the school day and are reviewed during synchronous instructional time in much the same fashion as would be the case if traditional in-person instruction was occurring.

ELL teachers will "push-in" to the virtual classes they are assigned that are occurring over TEAMS and support the students. They will also schedule a times to meet with the small group of the ELL students to provide their pull-out services or to assist with providing accommodations with class assignments. ELL teachers will continue to monitor the students they are assigned in both the classroom and pull-out sessions.

4. CSAT will provide an alternate means of remote instruction for those students for whom digital technology is not available or appropriate.

To date the school has not encountered a scenario where digital/virtual instruction has not been deemed appropriate while operating in a remote learning environment. CSAT's preference given past student performance is to remain in an in-person instructional status however we acknowledge the need to remain prepared for the eventuality of remote instruction. Should the CSAT Family Support Center Coordinator make a determination that existing digital technology resources are not appropriate then the FSC Coordinator will consult with the Director of Special Education and Principal to develop an alternate instructional approach that will provide appropriate supports.

5. CSAT will describe how students with disabilities or special needs will receive individualized education programs during remote instruction that ensures a continuity of support that comports with a free and appropriate public education.

Students receiving special education or related services at grades K-12 will continue to be provided those services virtually by their respective consultant SPED teacher within the outlined high school schedule. Special education staff will attend their regular class schedule and join virtual class sessions for co-teaching opportunities while also utilizing the Break-out Room to parallel teach and use the chat feature to call in for support and assistance on assignments. SPED staff also provide remote services and call-in times that offer students additional support and assistance on assignments. SPED staff will continue to complete draft Individual Education Plans (IEP), Summary Reports while continuously updating student tracking sheets. This tracking will be coded as "RL" to reflect remote learning on the tracking sheets.

CSAT acknowledges that remote learning is a modality of instruction that may need to be substituted for in-person instruction and therefore has committed itself to providing its staff with the professional development necessary to appropriately utilize technology in a remote environment. All new staff receive training from the school's Technology department on the use of Microsoft application. Additionally, all special education teachers and aides are linked to their co-teaching Microsoft TEAMS pages and channels. Class assignments and related notes are uploaded in One Note for all to access. Special education teachers have access to student IEPs through online student information systems. Students are taught how to access and use the online applications such as Immersive Reader and Translation to assist them with independent work.

6. Not applicable. As a New York State public charter school, CSAT does not receive foundation aid.
